A FIRR an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—
Careats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, excented on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same Copies of the claims of any Fatent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency: Dor only the largest in New England, but through it inventors have advantages for securing, patents, or ascertaining the patentability of inventions, unsurpassed by find immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSIVI. AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abindant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past has enabled him to accountate a yast collection of specifications and official decisions relative to vatents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Burope, render him able, beyond question, to offer superor facilities for obtaining patents.

All necessity of a journey to Washington to procure a putent, and the usual great delay there are here saved inventors:

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Stomachie preparation of IRON purified of Oxygen and Carlion by combustion of Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Hunkoious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Deblitity, Nervous Affections, Emaciation, Dyspensia, Constipation, Diarrhea, Dysentery, Incipient Consumption, Sendendons Tuberculosis, Salt Itheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatismi, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminition of nervous and muscular energy from shronic complaints, one trial of this reswoodla ronder credible. Invalids so long bed ridden as to have become forgotten in their

from shronic complaints, one trial of this reswould render credible. Tavallds solong bed
ridden as to have become forgotten in their
own neighborhoods, have suddenly re-appeared in the busy world as if just returned
from protracted travel in a distant land.—
Some very signal instances of this kind are
attested of female Sufferers, omsuited victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to
ait and exercise for which the physician has
no name.

In Nervous Affections of all kinds, and
for reasons familiar to medical men, the
operation of this proparation of iron must
necessariy be aslutary, for, unlike the old
oxides, it is vigorously tonic, without being
exciting and overheating; and grutly, regularly aperient, even in the most obstinate
cases of constiveness, without ever being a

Sad Picture of Matters in Iowa

Sad Picture of Matters in Iown.

The Lexington (Ky.) Observer prints the following as an extract of a letter from a gentleman of high standing in Iowa. It gives a melancholy view of the condition of affairs in that State. The writer may be inclined to look on the dark side:

"Do not trade for anything in the way of real value for anything in the way of real value within the limits of the State of Iowa, with the view of solling it at any price within the next free years. The value of the land is nominal; you may count it at \$1:25 or \$10; neither price would bring cash. I laws just sold land, bought in the county north of your county, for which I

cash. I have just sold land, bought in the county north of your county, for which I paid \$10 in 1867, good lands, at \$1 per acre, and that in trade. I consider lands anywhere within the limits of this State, unimproved, dear at over \$1.25 per acre, except in counties bordering on the river. No man living in this State con have anything like a correct idea of the utter hopelessness of the state of things in lows. The river towns are so flat that they can never get up again until there is an entire change of population. This place containing a population in 1857, or 40.000, is now reduced to 18.000, and people leaving just as fast as they get—money to get aviay. just as fast as they get money to get avray upon. The place is in debt one million and a quarter and she as well as Dubuque ct. al., along the tree; are talking of repu-diating! So do not own lands in lows, if you can avoid it. It will make you that much noorer."

A hungry juryman ren out of a court-room in Taunton, England, during a trial, to get his breakfast. When he returned the learned Baron fixed him £20 sterling for misderneanor, which made his minsider his morning meal expensive.

Coul Bank on Fire.

Coal Bank on Fire.

A coal bank, belonging to Alfied Patterson, near the residence of General Beeson, in north Union, Fayette county, Ps., says the Pittsburgh Post, of April 30, is at the present time on fire, and has been for about itx weeks. It caught from a fire kindled by some young men, which they failed fully to extinguish when leaving the bank. Catching a prop, it communicated with the coal, saud spread till it now covers a large space. All attempts to extinguish the fire have thus far proved abortive, and the result may be similar to that of a burning mountain in the same state, where a hill of coal has been burning for years, and continues to burn, without any probability of being extinguished.

John D. Defrees, writing from Washington to the Indianapolis Journal (his old paper,) says:—"Twenty years ago I was a looker on at the doings of Congress. Our readers will generally remember the Mercer and Heberton tragedy that occurred in Philadelphia many years since. A man of some wealth and social position, named Heberton, had seduced Miss Mercer, a young woman of seventaen, and refused to repair the matter by marriage. A brother took vengeance und his own hends, waylaid the seducer in a ferry boat, and shot him dead. For this he was tried for murder and acquitted. Since that heriod he has led and acquitted. Since that period he has led a wild career, and finally, about two jears since, was shot in a restaurant in Philadelphia. The sister was married a few years subsequent to the death of Heberton, lived unhappily with her husband, was drowned, and we find her death recorded in an ex-change. OAUTION.

Persons living at a distance should be entremely cautious of whom they order Leitery Tickets or Certificates of Packages of Tickets. The country is flooded with bogus and swind ling Lotteries: Every inducement is hald out to get persons to invest money in them—Capital Prizes of from \$20,000 to \$40,000 head their achiemes—with Tickets at Oar Dollar. \$100,000 Capital Prizes are offered. Tickets and if money is sent to them for Tickets, its amd if money is sent to them for Tickets, its amd if money is sent to them for Tickets, its so much thrown away "ithout the shadow of a cliance of getting a prize. Beware of all Lotteries where the Capital Prizes u unrual Lotteries where the Capital Prizes u unrual Lotteries where the Capital Prizes u unrual companison to the price of Ticket. In every instance where large Prizes are offered for a small cost of Tickets, put it sows for a cortain fraud.
